Subject: PR Springs Notice of Intention

Mr. Bhayani:

The Division of Oil, Gas and Mining has received a Notice of Intention to Commence Small Mining Operations from a company called Earth Energy Resources (EER). A copy of the notice is attached to this message.

EER is planning to mine and process tar sands near the top of the Book Cliffs right next to the boundary between Grand and Uintah counties. The notice gives some details of the processing operation.

Do you need further information? Should the operator be contacting Water Quality directly to see about getting your approval?

We need to respond to the operator by June 3, 2005, so we would appreciate receiving your comments by that date. If this will not be possible, please let us know when you anticipate you could respond.

Thank you for your assistance.

Susan White
